

CPR MANIKIN AND AED

INFANT MANIKIN

- Life-like features and weight allows for realistic infant CPR training. Sculpted body contours and realistic skin feel help prepare students for real life rescues. A head that simulates the way an actual infant's head would move. Face/head tilt enhances the CPR learning experience and teaches students how to open the airway during CPR.
- Prestan Professional Manikins may be equipped with a revolutionary CPR Rate Monitor that allows for instant feedback to both instructor and student regarding the rate of chest compressions. The visual feedback from the CPR Rate Monitor gives students a real life feel of delivering 100 compressions per minute.
- The CPR Rate Monitor is an optional feature and the Professional Series Manikins are available both with and without it.
- In addition to the visual rate monitor, students will also hear a clicker sound as the chest is pushed to the appropriate depth allowing them to experience the true force needed to deliver real life chest compressions.
- Fast & Simple: Clamshell torso design that accommodates an easy-to-insert face-shield/lung-bag.

Brand: Prestan, made in USA

CHILD MANIKIN

- The Prestan Professional Child Manikin is designed to look like a child verses an adult with less prominent body structures and softer, more childlike facial features. It is smaller and thinner than the Prestan Professional Adult Manikin. Yet, still realistic to the eye and the touch.
- Prestan Professional Manikins may be equipped with a revolutionary CPR Rate Monitor that allows for instant feedback to both instructor and student regarding the rate of chest compressions. The visual feedback from the CPR Rate Monitor gives students a real life feel of delivering 100 compressions per minute.
- The CPR Rate Monitor is an optional feature and the Professional Series Manikins are available both with and without it.
- In addition to the visual rate monitor, students will also hear a clicker sound as the chest is pushed to the appropriate depth allowing them to experience the true force needed to deliver real life chest compressions.
- Fast & Simple: Clamshell torso design that accommodates an easy-to-insert face-shield/lung-bag.

QUELINE RESCUE TOOLS ENT.

ADULT MANIKIN

- Realistic to the eye and the touch, unlike any other on the market.
- Lightweight, less than half the weight of the nearest competitor.
- Prestan Professional Manikins may be equipped with a revolutionary CPR Rate Monitor that allows for instant feedback to both instructor and student regarding the rate of chest compressions.
- The visual feedback from the CPR Rate Monitor gives students a real life feel of delivering 100-120 compressions per minute.
- The CPR Rate Monitor is an optional feature and the Professional Series Manikins are available both with and without it.
- The CPR Rate Monitor may also be purchased separately and easily installed into existing Prestan Professional Manikins.
- In addition to the visual rate monitor, students will also hear a clicker sound as the chest is pushed to the appropriate depth allowing them to experience the true force needed to deliver real life chest compressions.
- Easy Set Up
- Fast & Simple: Clamshell torso design that accommodates an easy-to-insert face-shield/lung-bag.

Brand: Prestan, made in USA

FAMILY MANIKIN

- Realistic looking and performing manikin is more acceptable to both instructors and students
- Far easier and faster to carry and setup at training sites
- Easily inserted face-shield/lung-bag provides
- visual chest rise to ensure students receive the most accurate and realistic training
- Face shield is secured so it won't slip and there's no need for adhesives
- Patented face/head tilt simulates how an actual victim's head would move if he required CPR and teaches students how to properly open the airway
- Located in the shoulder is an optional CPR Rate Monitor that provides instant visual feedback on compression rates - students know they are at the correct compression rate when two green lights illuminate
- The unique Clicker Mechanism provides an audible confirmation when the correct compression depth is reached, guiding to the appropriate force when administering CPR compressions.
- Prestan Manikins are not made with natural rubber latex

QUELINE RESCUE TOOLS ENT.

AED – AUTOMATED EXTERNAL DEFIBRILLATOR

- Real CPR Help for rate and depth of compressions.
- Support for the complete Chain of Survival.
- Help to all victims of sudden cardiac arrest (SCA), even those for whom no shock is advised.
- A one-piece electrode pad for fast and accurate placement.
- Our AEDs use consumer lithium camera batteries available from retail stores.

Technical Details:

Weight: 6.7 lbs

Energy Protocol: 120-150-200

Dimensions: 5.25" x 9.5" x 11.5"

IP Rating: IP55

Prompt Type: Voice + Graphics

Warranty: 5 + 2 Years Warranty

Operation Mode: Automatic

Contents:

- ZOLL AED Plus (with LCD Screen)
- One sleeve of batteries
- One set of CPR-D Padz
- Carry Case
- AED Cover
- AED Operators Guide

Brand: ZOLL, made in USA

Model: ZOLL AED Plus

ZOLL AED PLUS TRAINOR

Includes:

- CPR Demo Pads – Demonstration electrodes for use with clinical AED Pro or AED Plus (requires AED and simulator).
- Simulator - Simulates heart rhythm and 3-lead ECG for AED Pro demonstration using clinical unit.
- Manikin - Realistic looking and performing manikin. It is more acceptable to both instructors and Students. Far easier and faster to carry and setup at training sites. Easily inserted face-shield/lung-bag provides visual chest rise to ensure students receive the most accurate and realistic training.
