

DOUBLE PULLEY

DOUBLE PULLEY 7mm – 11mm

- GEMINI is a compact double pulley that sets up progress capture systems of high mechanical advantage.
- Special side plates designed for use with a Prusik friction hitch in progress capture systems
- Parallel mounted sheaves and auxiliary attachment point for creating different types of hauling systems
- Sheave mounted on sealed ball bearings for excellent efficiency

Specifications

- Rope compatibility: 7 to 11 mm
- Sheave diameter: 25 mm
- Ball bearings: yes
- Efficiency: 91 %
- Max. working load: $2 \times 1,5 \text{ kN} \times 2 = 6 \text{ kN}$
- Weight: 135 g
- Certification(s): CE EN 12278, NFPA 1983

Brand: Petzl, made in France

Model: Gemini

DOUBLE PULLEY 7mm – 13mm

- TWIN is a high-strength double pulley designed for rescue professionals. It is designed to set up progress capture systems of high mechanical advantage.
- Special side plates designed for use with a Prusik friction hitch in progress capture systems
- Parallel mounted sheaves and auxiliary attachment point for creating different types of hauling systems, including the most complex
- Large diameter sheaves mounted on sealed ball bearings for excellent efficiency
- Accepts up to three carabiners to facilitate use
- Certification(s): CE EN 12278, NFPA 1983 General Use

Specifications

- Rope compatibility: 7 to 13 mm
- Sheave diameter: 51 mm
- Ball bearings: yes
- Efficiency: 97 %
- Max. working load: $2 \times 3 \text{ kN} \times 2 = 12 \text{ kN}$
- Weight: 450 g

Brand: Petzl, made in France

Model: Twin

STAINLESS STEEL DOUBLE PULLEY

- It has stainless steel side plates and two 3" aluminum sheaves.
- The axle is also stainless steel. As you can see, the RP105D is built for strength. Although the addition of another sheave makes the pulley larger, it also gives it an additional 4000lbs over the standard RP105.
- If you're a rescuer or arborist that works with very heavy loads, the RP105D is for you.

Specifications

MBS	20,000lbs
Rope Capacity	5/8"
Size	7.25 x 4.25"
Weight	2.35lbs

Brand: CMI, made in USA
Model: RP105D

DOUBLE PROGRESS PULLEY

- Designed for use with the JAG TRAXION double progress capture pulley to make a 4:1 haul system
- Sheaves mounted on sealed ball bearings for excellent efficiency

Specifications

- Weight: 120 g
- Certification(s): CE EN 12278, NFPA 1983 Technical Use
- Material(s): aluminum, nylon
- Rope compatibility: 8 -11 mm
- Sheave diameter: 25 mm
- Max. working load: $2 \times 1,5 \text{ kN} \times 2 = 6 \text{ kN}$
- Breaking strength: $2 \times 4 \text{ kN} \times 2 = 16 \text{ kN}$

Brand: Petzl, made in France
Model: Jag

DOUBLE PROGRESS PULLEY

- Designed for use with the JAG double pulley to make a 4:1 haul system
- Toothed cam with self-cleaning slot optimizes performance under any conditions (frozen or muddy ropes...)
- Sheave mounted on sealed ball bearings for excellent efficiency
- Certification(s): CE EN 567, NFPA 1983 Technical Use

Specifications

- Weight: 145 g
- Material(s): aluminum, nylon
- Rope compatibility: 8 -11 mm
- Sheave diameter: 25 mm
- Max. working load: $2 \times 1,5 \text{ kN} \times 2 = 6 \text{ kN}$
- Breaking strength: $2 \times 4 \text{ kN} \times 2 = 16 \text{ kN}$

Brand: Petzl, made in France
Model: Jag Traxion
